

# Summer Service Days

## July 16 & August 13, 2010

### Script

Hello, my name is \_\_\_\_\_. This summer I'm attending the Conservation Corps North Bay youth summer program, Project Regeneration, for 4 weeks. We're doing environmental service projects throughout the North Bay. I am learning a lot and having a blast!

On the last day of the session, we're hosting Summer Service Days, where we will be leading service projects for the entire community.

The Conservation Corps North Bay is a nonprofit organization that offers this extremely popular program free-of-charge to sixth to ninth graders, like me. We're helping to raise money for the program as part of our civic engagement project and I wanted to ask you to pledge your support by making a donation of \$25. Any amount that you can give will help. You can write a check to CCNB today or go online at [www.conservationcorpsnorthbay.org](http://www.conservationcorpsnorthbay.org) to make a donation in my name.

Thanks for your support!
